Bathmaster
sonaris2

What makes Sonaris2 unique?

Combines Quick Charge convenience, the latest technology, and a higher weight capacity for the ultimate in safe, secure bathing

Super Fast Quick Charging— Advanced battery fully charges in only one hour! 5 minutes is all it takes to charge device for one complete lift (down and up).

Nanotechnology Antimicrobial Protection—Not just a coating, silver ion antimicrobial protection is infused into easy-clean, plastic for long-lasting performance without the spread of bacteria.

Easy Assembly—Seat and back click together or snap apart.

Intelligent Design—Hand controller is triple-sealed for safe submersion and will not lower the unit if battery power isn't sufficient to raise the user out of the tub.

Weight Capacity—375-lbs.

Both Sonaris2 and Deltis feature these impressive details

What makes Deltis unique?

Great performance at a great price and one of the lightest reclining bathlifts on the market today

Super Fast Quick Charging—Advanced battery fully charges in only one hour! 5 minutes is all it takes to charge device for one complete lift (down and up).

Lightweight Design—Bathlift with handset and battery weigh only 24 lbs.

Simple Assembly —Separates easily into two parts for easy installation, removal and transport.

Warning Light— Lets you know when charging is required.

Weight Capacity—309-lbs.

Personalized Comfort Select any angle of recline (up to 40°) to lower your upper body into the water comfortably. Gently contoured seat and backrest provide additional support.

Built-in Safety Controllers float and are fully submersible. Suction cup feet hold bathlifts securely in place.

Compact & Convenient All-plastic design is corrosion-free, easy to clean, and lightweight for effortless transport and storage. Bathlifts fit in virtually any tub and large side flaps make for easy transfers.

Independent bathing has never been easier or more comfortable!
