DESCRIPTION

The AL815CC is the perfect solution for pickup trucks with crew cabs and a light payload. This model is equipped with a longer arm for side loading and 2x the speed of the AL825CC.

This model is equipped with a newly designed anti-rotate strap system and compact base for a better fit in the truck bed. This convenient lift brings the manual wheelchair, scooter or power chair right to the driver's or passenger's side door. The AL815CC Crew Cab 150 Speed Lift easily loads virtually any mobility device available into the bed of your pickup truck and unload it to the driver or passenger side door. An optional wireless remote control makes the AL815CC fully functional from within the cab!
